No mercy will be shown any employes of the District government in the event of the Commissioners being furnished information to the effect that officials or clerks patrontze handbooks or indulge in any other form of gambling. Victory of State in Railway Rate Fight Proves Popular.

RALEIGH, N. C., July 29.-Congratulatory telegrams from all parts of North Carolina and from other states are pouring in on Gov. Glenn on account of his victory in the railway rate case. He said last night:

"I think the reason why the railways backed down is that they were thoroughly satisfied, after examining the law, duty on coffee brought in from Porto Rico | that a federal court in an equity suit against the corporation commission could not enjoin a state court or its officers from enforcing a law which went into effect by virtue of its own force and which was being openly violated, and they knew further that habeas corpus would not lie to take a state prisoner from a state court having jurisdiction." The governor has been invited by the Brooklyn Democratic Club to speak in that city August 20.
